

# TUSCO

PERIMETER SECURITY SOLUTIONS

## COMMERCIAL FENCING

a PERFORMANCE DRIVEN company

## Commercial Fencing

Established in 1974, Tusco has over four decades of experience installing high security perimeter fencing on a multitude of projects across the nation.

Crash rated and anti-climb ornamental fencing is available for sensitive facilities that require very strict control over site access. Ornamental fencing and gates are a perfect solution for sites where the need for perimeter security need not come at the cost of aesthetic beauty. Commercial and industrial grade chain link fencing stands the test of time as a trusted security solution for various types of facilities such as ball parks and airports.
