

TUSCO

PERIMETER SECURITY SOLUTIONS

SERVICE & MAINTENANCE

a PERFORMANCE DRIVEN company

Service & Maintenance

In order to maximize the lifespan of your automated entry control system, Tusco's preventative maintenance programs maintain equipment efficiency and reliability through ongoing inspection and maintenance of all physical security products.

Tusco's technicians are factory trained and certified by many of the nation's leading manufacturers of automated gate controllers, barriers, and bollards. With monthly, quarterly, semi-annual, and annual programs available—along with priority response for troubleshooting and general repairs—Tusco's preventative maintenance programs can be customized to fit any need. Contact us today for a free consultation and quote.
